
CP-099 - Touch screen (HMI) 3.5"

Spare Part Number: CP-099

Net Weight: 305.00g

Net Dimensions: 103.80mm x 129.80mm x
52.80mm

Technical Datasheet: [Protected Link](#)

Description

CP-099 Touch Screen (HMI)

The HMI (human-machine interface), often also called Touch Screen, is the user interface that connects the operator to the controller for the Vianord system. The HMI translates data from the industrial control systems (the PLC) into human-readable visual representations of the systems. Through the HMI, the operator can operate the machine while a Technician can see schematics of the systems and turn switches and pumps on or off, for example, or raise or lower temperatures.

NOTE: This component need to be programmed in the factory according to Equipment Type, Model and Serial Number.

3.5 inch, TFT LCD, Color, 320 × 240 dots, USB Host, Ethernet

NB3W-TW01B

Equipment Ref

810 Ref NB3

812 Ref NB3
