

# CH-021 - Pre-Heating resistor

**Spare Part Number:** CH-021  
**Net Weight:** 0.00kg  
**Net Dimensions:** 0.00cm x 0.00cm x 0.00cm

## Description

### CH-021 Pre-Heating Resistor

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

Heating resistor quartz 8x12x1130 1500w

## Equipment Ref

812 Ref R2 - pre-heating
